

School Council update - October 2017

We have got off to a really good start already this year. In September we started our democratic process off with school council elections. Councillors for each class have now been elected and meet weekly with Mrs Wain.

So far children have raised several topics for discussion: Clubs for key stage one, a wider range of books in the library, have a class blog for each class. Mrs Julyan has also asked us to gather feedback from classes about what they think is positive about our school and what we would not like to be photographed by visitors. She also asked us to find out what attendance rewards children would like for the best class each half term and the big individual award at the end of the year. Mrs Wyatt will use this information to help decide on these rewards.

Next half term the school council will be working on a project with Mrs Austin to shape lunchtime playtime games and activities. They will also be helping Mrs Wain to plan our anti-bullying week activities. If you have any ideas do speak to your class councillor.
